### **FOR IMMEDIATE RELEASE-Officials in Six Towns Endorse Bennett on Convention Day June 9<sup>th</sup>, 2014**

In the closing hours of the campaign for Republican County Party Chairman, it is important for County Committee members to reflect upon their responsibility to help build a Republican Party which can win victories against Democrats, and deliver good government to the people. The primary responsibility of the political party is to win elections-and Chairman John Bennett has delivered on that responsibility over the last two years, and has strengthened every facet of the Party along the way.

By now, you've already heard about Chairman Bennett's fundraising muscle. In two short years he's raised nearly \$700,000 dollars, which is nearly a 60% increase! The results show: Our County candidates have had back to back landslide General Election victories. That is a far cry from when the Democrats controlled the County Freeholder Board as recently as four years ago.

Chairman Bennett has intervened on a municipal level to politically assist local candidates and Chairmen. Part of this effort has been done through the County Party headquarters, which is now open and staffed full time thanks to John. John also financially assisted local campaigns by doing mail-pieces in competitive towns. John Bennett updated and modernized the County Party website, and is very actively utilizing social media outlets like Facebook and Twitter to engage and influence young voters.

We are a Party on the rise, and it is paramount we continue this progress. We are the only County in New Jersey where Democrats outnumber Republicans, and yet Republicans fully control the County Government and State Legislative Delegation. We are playing with fire unless we have a strong and experienced leader, so please vote for John Bennett at tomorrow's convention. Our future success depends on it.

#### **Brielle Mayor and Council**

Mayor Tom "Tucker" Nicol
